TOXICOLOGICAL RISK ASSESSMENT – USA

PRODUCT:

ANTIBACTERIAL SHEET

This Risk Assessment is conducted in accordance with the United States Code of Federal Regulations 16 CFR 1500.3 Federal Hazardous Substances Act.

This assessment takes account of:

- a) The general toxicological profile of each ingredient used.
- b) The chemical structure of each ingredient.
- c) The end use of the product.

REVIEW OF INGREDIENTS

The assessment is based on ingredient safety reviews and legislation and information on the final product, including the intended and reasonably foreseeable conditions of use and the physico-chemical properties of the ingredients.

PRODUCT DESCRIPTION

ANTIBACTERIAL SHEET FILTER

This document is issued by the Company subject to its General Conditions of Service, available on request or accessible at www.sgs.com/terms_and_conditions.htm and, for electronic format documents, subject to Terms and Conditions for Electronic Documents at www.sgs.com/terms_e-document.htm. Attention is drawn to the limitation of liability, indemnification and jurisdiction issues defined therein. Any holder of this document is advised that information contained hereon reflects the Company's findings at the time of its intervention only and within the limits of Client's instructions, if any. The Company's sole responsibility is to its Client and this document does not exonerate parties to a transaction from exercising all their rights and obligations under the transaction documents. This document cannot be reproduced except in full, without prior written approval of the Company. Any unauthorized alteration, forgery or falsification of the content or appearance of this document is unlawful and offenders may be prosecuted to the fullest extent of the law."

Unless otherwise stated the results shown in this test report refer only to the sample(s) tested and such sample(s) are retained for 30 days only. This document cannot be reproduced except in full, without prior approval of the Company.

Oral Toxicity- Neat Product

If swallowed, the formulation as supplied may cause slight, transient irritation to the mouth and upper digestive tract.
Not toxic by ingestion.

Inhalation Toxicity

It is unlikely that inhalation will be a route of exposure.

TOXICOLOGICAL RISK ASSESSMENT CONCLUSION

Based on the toxicological profiles of the ingredients used in the Antibacterial Sheet, their concentrations in the formulations and the mode of use of the products, it is concluded that the ingredients in these products are compliant with the requirements of the Code of Federal Regulations 16 CFR 1500.3 Hazardous Substances Act.
